- 6. Add a Case (optional) and Question Stem
- 7. A value for **Min Points** must be entered to show the minimum amount of points required to get the answer correct
- 8. **Point Value** will be updated after the item is saved to reflect the total number of points that can be earned

Answer choices can be set to reflect individual point values and a Critical Fail. Answer choices marked as Fail will automatically assure the user does not receive any credit for the question, immaterial to whatever other correct choices are selected. The number of points that can be earned are set by entering point values to the left of the Points text window. Negative values can also be entered.

- 9. Type or paste answer choices in each text window *If pasting, remove formatting by first pasting the text into a format stripper like Notepad
- 10. Reduce the number of answer choices by selecting the \bigotimes next to a text window
- 11. Increase the number of answer choices by selecting Add Answer

D	Points Fail	Do nothing, normal anatomic variant	×
2	Points Fail	Inform the patient of the finding	۲
2	Points Fail	Review past dental history	8
-1	Points Fail	Monitor and re-examine at the next	۲
2	Points Fail	Clinically re-examine the patient	8
2	Points Fail	Order an occlusal radiograph	8
-1	Points Fail	- B I U SI X₂ XI Font Family ▼ Font Size ▼ Ω Order a lateral <u>cephalometric radiograph</u>	۲

Answer Choices *(?)

- 12. Add an Explanation and References (both features are optional)
- 13. Click Save to save the question and remain on the page
- 14. Click **Save and New** to save the question and add another (outline choices and question type will remain the same unless changed)

*Clicking **Reset** will clear all fields.
