

PC IP Restrictions

1. Log into your Portal Controller Account to view the Portal Controller Dashboard

The screenshot shows the 'Admin Dashboard' of the Exam Master Portal Controller. The top navigation bar includes 'Portal Controller', 'Settings', and 'Logout'. The main content area features a 'Good Morning Portal' notification and a 'Programs' table. The table lists two programs: 'EMC Sales Demo University' with 152 registered users and 34 faculty, and 'Demo' with 16 registered users and 6 faculty.

Program	Registered Users	Faculty
EMC Sales Demo University	152	34
Demo	16	6

2. Click **Portal**
3. Select **Portal Options**
4. Click the **IP Ranges** tab

The screenshot shows the 'Portal Options' page with the 'IP Ranges' tab selected. It includes an 'Add IP Range' section with instructions and a 'Your current IP address is: 50.246.182.174' notification. Below is an 'Edit Portal' form with fields for 'Range Start', 'Range End', and 'Range Status' (set to 'Inactive'), a 'Save' button, and a 'Back to List' link. At the bottom, an 'IP Ranges' table shows a single entry with a '50.246.182.162' range, 'Inactive' status, and edit/delete icons.

Range Start	Range End	Range Status	Actions
50.246.182.162	50.246.182.162	Inactive	 

5. Under **Range Start** input the start of allowed IP Range
6. Under **Range End** input the end of allowed IP Range
7. Under **Range Status** select Active or Inactive
8. Click **Save** when complete

IP Ranges can be edited below the header IP Ranges by clicking the  and deleted by clicking the .
